

MOEN BRASS POSI-TEMP® CARTRIDGE, ROUGH-IN VALVES AND TRIM KITS PROVIDE CONVENIENCE AND FLEXIBILITY FOR COMMERCIAL SHOWERING APPLICATIONS

- The new 1222HD brass Posi-Temp® cartridge, brass Posi-Temp rough-in valves, and all-metal trim-only kits from Moen allow commercial building owners and maintenance managers the ultimate flexibility to create a custom, heavy-duty commercial tub/shower package to meet the needs of their facility

1222HD Brass Posi-Temp Cartridge

- New brass cartridge features superior durability, with exceptional strength and resistance to heat
- Large, custom-seal design prevents freeze-up in the valve body, in the event the cartridge would need to be serviced

Brass Posi-Temp Rough-In Valves

- Offer a broad comfort zone, with adjustable temperature limit stops that prevent turning the valve to a full hot water setting
- Posi-Temp valves balance pressure to maintain temperature within +/- 3.6° Fahrenheit, eliminating shower shock caused by pressure fluctuation in the supply system
- Choose from IPS, CC, PEX or CPVC inlet connection options
- Designed with Moen's M-Pact® common valve system, allowing building owners and managers to easily switch out the showering trim
- Meets ASSE 1016 compliance requirements for controlling temperature fluctuations when paired with Moen Commercial showerheads and hand showers with flow rates as low as 1.5 gpm
- Integral stops allow you to shut off the water supply at the valve, saving labor, time and expense

Trim-Only Kits

- Sold separately for installation flexibility, these kits offer heavy-duty, all-metal, vandal resistant features
- Chrome finish stands up to harsh industrial cleaners
- Pair with new brass Posi-Temp rough-in valves, which offer a choice of four connection options, including IPS, CC, PEX and CPVC
